13. Do you have a veterinarian? If so Please list their name and contact information.
14. If purchased as a family companion, you must adhere to my requirement to leave your puppy intact until 24 months of age for male companion puppies and 3 months after the second season for female companion puppies do you agree to do this?
15. Where will the puppy/dog spend most of its time?
16. Do you live in a house, apartment, etc?
 - 16 a.)If you rent, has your landlord agreed in writing to allow you to have a dog on the premises will you provide that documentation
17. Is your yard fenced in? If “yes” what type of fence is it (chain link, wood etc.) and how tall is the fence?
18. If your yard is not fenced in how will you provide security for the puppy when it is outside? I do not consider invisible fences an acceptable fence. Your puppy may never stray outside, but it does not keep other dogs or animals from coming into your yard to hurt your puppy.
19. What are your plans for the puppy when you are not at home?
20. Have you ever crate trained a puppy?
21. Will someone be home during the day or able to come home to let the puppy out to potty?
22. Do you agree to never let the puppy be tied/chained up outside as a means of confinement? If not please state why?
23. Do you understand that Golden puppies like to chew on items and have very sharp teeth while they are teething? Proper training is needed to insure that your favorite shoes, Grand mother’s chair or other property, do not become a chew toy/hazard for the puppy. Those razor sharp teeth can also cut skin very easily so proper training helps to ensure you do not get cuts or puncture wounds on you or your children.
24. Are you willing to take your puppy to socialization classes so that it will become an enjoyable companion and good canine citizen?
25. Are you aware that adding a puppy is like adding a two year old child to your household that comes with a 10-15 year commitment?
26. Are you aware that Golden Retrievers are considered a large breed and they shed A LOT!
They need to be groomed and bathed on a regular basis.

In spite of the best care and the best breeding practices, health problems may occur that require surgery or extensive treatment. These problems can include but are not limited to: OCD, hip dysplasia, elbow dysplasia, liver shunts, allergies, and the most unfortunate cancer.

27. Are you willing to provide good veterinary care and are you willing to invest in your puppy in the event of health problems?
28. Are you willing to feed a good quality food selected from a list provided to you? Or check with me if you want to change foods?
29. If due to unforeseen circumstances you have to place the dog, I require you return the puppy/dog to me and I will place the puppy or help you find a suitable new home, do you agree to this?
30. Are you on a waiting list for any other litters?
31. Are you willing to abide by a contract that specifies matters regarding registration, health, breeding, spay/neuter, and general care?
32. I also do not approve of the dog/puppy living outside. Golden Retrievers are loving dogs and do best if they are with their family. Do you agree to allow the dog to live inside and to never be chained up outside as a regular means of confinement? Do you agree to allow the puppy to live in your house?
33. I also do not approve of dogs/puppies riding in the back of pick-ups either in a crate or out. I have seen what happens if you should ever get in a wreck and the dog never survives.
34. Is there any additional information you would like to share that would be helpful to get to know you better?
